Border Patrol Agent Noe Aleman Turns Self In To Serve Jail Sentence

By Digger

Border Patrol Agent Noe Aleman turned himself yesterday, June 11, 2007, to US Marshals at about 1:30PM to start serving his sixth month sentence. Noe still protests his conviction and says that the whole prosecutorial case is based on "a couple of typos." and that he "did not harbor anybody,".

A last minute motion for an extension was denied. Noe Aleman's attorney, Gary Hill, says he will file to have the conviction overturned. Hill said Aleman received "ineffective assistance of counsel."

In 2004, Isabel and Noe adopted her three nieces, all young girls, but the Alemans say that immigration officials made numerous typos on the documents including getting the girls ages wrong, making them adults when they were actually younger and that the visas issued for the girls were for 1 day when typically they are given for 90 days.

When Noe Aleman went to pick up what he thought were corrected documents and proper visas from an immigration office with the three girls, he was arrested on the spot and the three girls were taken away and deported to Mexico.

The Alemans now face losing their house while Noe is imprisoned for six months.

This whole case is an outrage and is being brought by the same team that put **Agents Ramos and Compean** behind bars. That would be the team of US Attorney Johnny Sutton and Judge Kathleen Cardone.

Noe Aleman, 12 Year Border Patrol Veteran

I ask that you now head over to the [Noe Aleman website](#) and make a donation to help his family in this time of need. Put yourself in their situation for just a minute and you'll soon realize that Noe, a veteran Border Patrol Agent of 12 years, was simply trying to do a good thing and is being persecuted for it.

Jim Stach of [Freedom Fighter Radio](#) recently talked to Noe Aleman.

The Three Aleman Girls

is an outrage.

An outrage indeed! Good upstanding Americans are being sent to prison while illegal aliens are being arrested on sex crimes and deported only to return and do it again.

Here are a few comments over at [Lone Star Times](#) where I think they sum it up pretty well with not only their questions of obvious potential corruption, but their total distrust of the legal system now after seeing these cases. It's a shame that Americans have these opinions, but what else are they supposed to believe when they see this repeated over and over?

Sutton's office is totally corrupt, he shuld be hung by his b___s

Our country is becoming Mexico.

Where anyone can be bought.. and corruption is rampant. It will only head North.

Someone smells stinky - Slimy Sutton

People who wear body armor to work shouldn't be able to be stabbed in the back by someone with a courthouse tan.

Our attorney general was active with LaRasa. Johnny Sutton in three of these cases has the same judge, same courtroom and the defendents end up with the same lawyer..... don't ask me how that has happened. Corruptiton.....oh yes. We can't get our attorney general to even look at these cases, and Johnny Sutton continues his path of family destruction. Wonder where the drug cartels come into play?

It simply makes no sense. What is going on, seriously?

*his **legally** adopted daughters have now also **been barred from entering the USA for 10 years**, while illegals with repeat offences can return to the USA **this is not Justice our Government is out of control.***

*El Presidente Seno'r Bush has refused to help or even listen to facts that clearly show that **these men were lied about.** And now Bush and others in Government want to possibly pardon Libby down the road, this*

and statistics.
